

MARKET UPDATE **SERIES**

Climax has Rigid Couplings too!

You already know that Climax has great, quality shaft collars, but remember, when you need a Rigid Coupling to connect a motor output shaft to a drive shaft or to join two aligned shafts...**THINK of CLIMAX RIGID COUPLINGS!**

Climax rigid couplings are a value-priced workhorse, precision machined to minimize runout.

Available in:

- ◆ Set Screw, One-piece & Two-piece styles
- ◆ With or Without Keyway
- ◆ Steel, Stainless Steel & Aluminum
- ◆ Both English & Metric sizes

Over 200 stock sizes from 1/2" to 2 1/4" ID & custom sizes available on application.

We also feature a new Machinable bore style suitable for re-bore perfect for short lead-times and emergency situations. Also eliminates special charges and long lead-times that go along with custom parts.

Contact Climax for more information on our complete line of Shaft Collars & Rigid Couplings.

As always, we appreciate your Business!
