Food Processing Demand Growing..

The growing appetite for convenience foods drives continued growth in the food processing market.

The demand for food processing in the United States is expected to grow at an annual rate of 3.4%!

MRO in most food processing facilities calls for stainless steel components.

Climax Shaft Collars and Rigid Couplings are the perfect solution!

Count on Climax for premium quality products, manufactured from T303 Stainless Steel. Also available in T316, a more corrosion resistant collar.

Contact Climax for more information on our complete line of Shaft Collars & Rigid Couplings.

As always, we appreciate your Business!
